

Veolia Transportation has changed its name to Transdev

Transdev Announces Long-Term Deal with HASTUS Scheduling and Dispatch Software

Houston, TX – at APTA EXPO— October 13, 2014 -- Transdev, previously Veolia Transportation, announced that it has signed a long term deal with GIRO, for its *HASTUS* scheduling and dispatch software. Starting in 2015, Transdev will be rolling out the *HASTUS* solution across its nearly 100 transit contracts in the U.S. Globally, Transdev is also unifying on *HASTUS* in its operations in 20 countries. GIRO's *HASTUS* is a world leader in scheduling/dispatch software solutions.

Transdev chose *HASTUS* for a variety of reasons including its capabilities to optimize dispatch performance and runcutting, and its strong tools for managing labor utilization, overtime and extra board drivers. Transdev delivers both improved quality and efficiency to its clients, and the strong performance management tools in the *HASTUS* technology suite help ensure both increased service reliability and efficiency.

“We are very pleased that we will be able to bring this state-of-the-art software for scheduling and dispatch to our clients,” said Ken Westbrook, Chairman of Transdev’s Transit Division. “We are particularly excited to be able to offer these strong tools to our medium and smaller-sized clients, who on their own likely could not afford to acquire them,” he continued.

Transdev is currently piloting the *HASTUS* software in its contract in Napa Valley. The rollout of the technology in the U.S. will follow this pilot.

About Transdev (Previously Veolia Transportation)

Based in Lombard, IL, near Chicago, Transdev, (previously known as Veolia Transportation), adopted its parent company’s name in the U.S. in August 2014. The company is the largest private-sector operator of multiple modes of transit in North America, including bus, rail, paratransit, shuttle, and sedan and taxi services. Globally, Transdev operates public transportation in 20 countries. Transdev is committed to being the trusted partner of cities, transit authorities and airports through quality execution and innovations in mobility.
