Veolia Transportation Names General Manager for Stanford University Shuttle Bus Contract

Palo Alto, CA – October 8, 2009 – Veolia Transportation has named Gregg Eisenberg as General Manager for its newly acquired shuttle bus contract at Stanford University in Palo Alto CA. The announcement was made this week by Veolia Transportation's Regional Vice President for Northern California, Ron Bushman.

Eisenberg will oversee the shuttle bus service on the university campus, which includes service to the Stanford Medical Center, Hospital and Clinics, and the Lucile Packard Children's Hospital. This service also extends to two Caltrain stations that transport approximately 5,000 Stanford students, employees and faculty to the campus each day.

The current service, which launched September 1, 2009, is very popular on campus, utilizes 43 vehicles and operates seven days per week.

In making the announcement Bushman said, "Gregg has a keen sense of understanding of customer needs, and a track record of responding to their needs with competence and great care."

Eisenberg has 14 years of transportation experience, having started his career in the car rental industry. In 2002 he moved to the public transportation sector accepting a position as the Lead Supervisor for the Regional Center for East Bay, a non-profit organization in California which provides miscellaneous services to people with disabilities. Prior to joining Veolia Transportation he was named General Manager for Antelope Valley Transit Authority (AVTA) in Northern California. In his first year as GM for AVTA Eisenberg reduced the accident frequency rate by 62%.

About Veolia Transportation

Veolia Transportation is the largest private-sector operator of multiple modes of transit in North America, including bus, rail, paratransit, shuttle, sedan and taxi services. The company has a workforce of over 20,000 employees and contractors, and operates some 200 contracts for cities in North America, including Los Angeles, Denver, Phoenix, Seattle, San Francisco, Baltimore and Atlanta. The company also operates several major commuter rail networks, including Boston, San Diego, Austin and Miami, providing a range of rail services to clients.

Veolia Transportation is part of Veolia Transport, the world's largest private operator of multiple modes of public transit, including bus, rail, paratransit, shuttle, ferry and taxi services. Veolia Transport operates contracts for 5,000 city transit authorities in 28 countries, and completes 2.63 billion passenger trips per year. The company operates some of the most sophisticated rail systems in the world in Australia, Germany, The Netherlands and the UK.
