

## ***Transdev Awarded Operations Contract for New Fleet at N.C. State***

(Nov. 18) CHICAGO—Transdev, the leading global provider of multi-modal mobility solutions, is pleased to announce it will begin operations and maintenance for the campus shuttle at North Carolina State University after the Board of Regents approved the new contract.

N.C. State will purchase 40 buses, creating an entirely new fleet to serve the 41,000 students and staff on three campuses. Transdev will employ a staff of 77 people for the \$7.6 million annual contract. The Wolfline service is free to the public and operates primarily among the Main, Centennial, and Centennial BioMedical campuses and surrounding areas. Transdev will commence operations in August of 2017.

"We are excited to be a part of the Wolfpack community and are looking forward to providing an exceptional passenger experience to the students and staff of N.C. State and residents of Raleigh," said Derrick Breun, Transdev's Regional Vice President of the Southeast Region. "The new fleet of 45 El Dorado buses will improve passenger comfort and drastically reduce maintenance complications. Overall, passengers should expect to see an upgrade in service and reliability."

During Fall and Spring semesters, Wolfline operates 10 daytime routes and four evening routes. The shuttle also serves three Park & Ride lots and official N.C. State housing. Transdev's operations are scheduled to begin in time for the Fall 2017 semester to accommodate the acquisition period of the new fleet.

### **About Transdev**

Based near Chicago, Transdev is the largest private-sector operator of multiple modes of transit in North America, including bus, rail, streetcar, paratransit, shuttle, and sedan and taxi services. Globally, Transdev operates public transportation in 19 countries.
